I. Read the following text and choose the right options. (1pt each, 3pts total)

“The History of Reggae Music

Reggae music was first started in the 1960’s in Jamaica. It is a combination of ska and rocksteady music, but the beat is a slower tempo than regular Jamaican music. It is easily recognized by the guitar rhythm.

The meaning of reggae refers to the ‘rags or ragged clothing’ worn by the musicians. Bob Marley, the most famous Reggae artist, said that the word came from a Spanish term for “the king’s music”.

Marley, a Jamaican singer, musician and songwriter served as a world ambassador for reggae music. Marley achieved several great accomplishments during his lifetime, including earning induction into the Rock and Roll Hall of Fame in 1994, and selling more than 20 million records—making him the first international superstar to emerge from the Caribbean region.

The first reggae albums were released in 1968 and soon reggae music started to influence other artists. It was first especially noticeable in the Beatles’ pop song Ob-La-Di, Ob-La-Da. Later, Eric Clapton’s song, I Shot the Sheriff, helped bring the music to everyone’s attention, making it an international success. Subsequently, in the 1970’s, punk and rock bands used reggae influences in their music. During the 1980’s, bands like UB40 also used reggae influences to propel their songs to the top of the charts. The influence of reggae music is still common today as it mixes well with different musical styles. It complements American hip-hop music and also rock n’ roll.”
