Describe an animal.

We are working on Unit III “The Natural World” and we have learnt plenty of vocabulary we need to use. So the activity here is pretty simple, choose one animal you like and tell a few things about it using the vocabulary we learnt.

Activity

Choose one animal you like and describe it as in the examples.

1. Name the Animal (1pt)
2. Name five things about the animal you choose (2pts each, 10pts total)
3. Name the habitat where the animal lives (1pt)
4. Name two things about the habitat (2pts each, 4pts total)
5. Name two things the animal you choose eats (2pts each, 4pts total)

Example:

*“My favorite animal Hi, I am Karen. My favorite animal is the orangutan. I love it because it is funny, friendly and very intelligent. It lives in rainforests and spends most of the time on trees. It eats a lot of fruit, honey, insects and bird eggs. It can live over thirty years. It is in danger of extinction and there are only a few orangutans in the world.”*

*“My favorite animal is a duck. I like ducks because they are cute and fluffy. Also, because they quack. I think I would be a great duck owner. I would name my duck Steve. I have read a lot of duck books. I have learned a lot of duck facts. One fact is that the boy duck has a green head and the girl does not.:) I really want a duck but my mom won't let me have one. :(“*
